

# A GREAT CLEARANCE SALE OF \$25,000 WORTH OF DRESS GOODS

Including Silk, Wool Goods, and Wash Goods

WE HAVE DECIDED TO QUIT CARRYING DRESS GOODS IN THE PIECE

A crowded store and want of room generally has compelled us to take this action. Our business has grown so rapidly that we cannot properly display the merchandise in all departments that we carry.

We are determined that in whatever lines we show the stock must be complete, and this requires space for display. Our Lace Department, our Glove Department, our Fancy Goods and Notion Departments have all outgrown their present space. To effectively further build up these branches we will dispense with Dress Goods in the piece.

The stock is all brand new and recently to hand, as we had no idea of closing out this department until a few days ago.

## A Great Price-Cutting Sale Will Begin on Wednesday, Sept. 4th

and as soon as the whole stock has been gone over and re-marked the entire details will be advertised.

As we want quick results to enable us to make the changes in time to take care of our holiday lines, we can promise such marvelous bargains in high grade dress goods materials that should result in the biggest sale ever known in the city of Honolulu.

### SUB-LESSEE NOT RESPONSIBLE FOR INSANITARY TENEMENT

Chinese Found Not Guilty When  
He Shows Magoon Owns  
the Property

Wing Duck Chong, who was arrested on a charge of keeping an insanitary tenement, was found not guilty this morning as a result of evidence introduced which showed that the property was leased by the defendant from Lum Yip Kee, tenant of J. A. Magoon, who is owner of the property.

According to Judge Monsarrat, the defendant cannot be prosecuted under the charge when he is only a sub-lessee of the involved property, but a complaint against either Lum Yip Kee or J. A. Magoon will have to be made.

by the board of health. No warrant had been sworn out for either at noon today.

On account of lack of sufficient evidence, the charge of keeping a lodging-house without a license preferred against Wing Duck Chong was nolle prossed this morning.

Two charges against Chun Wai Hoon, one for keeping an insanitary tenement, the other for running a lodging-house without a license, will be tried on September 5th.

Three alleged violations of Board of Health regulations which have been charged against Wat King, manager of the Palama Investment Co., and five of a similar nature preferred against Suey Yan, manager of the Pang Fong Co., will be heard on the same date.

### NINETEEN CHINESE ARRESTED AS GAMBLERS

Nineteen Chinese were arrested in an alleged gambling house shortly before midnight last night and charged with violation of the ordinance which makes it a misdemeanor to be present in a room the entrances to which are locked, bolted, and barred so as to make it difficult of access to police officers.

All were arraigned in court this morning and pleaded not guilty to the charge. The case was taken under advisement by Judge Monsarrat after hearing the evidence.

Owing to the fact that all the accused had given fictitious names at the time of arrest later forgo what names they had given, there was some little trouble in gathering them together for trial although all were present in the court-room.

### FEDERAL PLANT LAW AFFECTS HAWAII

New Measure Under Which  
Secretary Wilson Would  
Proclaim Quarantine

BY C. S. ALBERT  
(Special Star-Bulletin Correspondent)

WASHINGTON, D. C., Aug. 16.—A bill bearing on the Mediterranean fly pest, and in which Hawaii is exceptionally interested, has passed. The title of the bill is comprehensive and indicates its general purpose:

"To regulate the importation and interstate transportation of nursery stock; to enable the Secretary of Agriculture to appoint a Federal horticultural commission, and to define the powers of this commission in establishing and maintaining quarantine districts for plant diseases and insect pests; to permit and regulate the movement of fruits, plants, and vegetables therefrom, and for other purposes."

The bill is made applicable to all portions of the United States, the Territories and the insular possessions. It is made unlawful for any person, under heavy penalties, to import any nursery stock without a permit from the Secretary of Agriculture. The Secretary of the Treasury is required to notify the Secretary of Agriculture whenever any nursery stock arrives at any port of importation.

Whenever the Secretary of Agriculture shall determine that the unrestricted importation of any plants, fruits, vegetables, roots, bulbs, seeds or other plant products not included in the term "nursery stock," may result in the entry into the United States or any of its Territories of injurious plant diseases or insect pests, he may establish a drastic quarantine against the places of exportation. A hearing must be given in public to all interested parties before a quarantine edict is promulgated.

It is especially provided that "the quarantine provisions, as applying to the white pine blister rust, potato wart and the Mediterranean fruit fly, shall become and be effective upon the passage of this act."

The passage of this bill was advo-

cated by the Pacific Coast delegations in Congress. Members of the House have for months been seeking to secure such legislation in that body. The measure presented was engineered through the Senate by Mr. Chamberlain of Oregon.

The Pacific Coast people claim to have been actuated by a desire to protect themselves against the entrance of the Mediterranean fly from Hawaii.
